

ANGELS IN THE SNOW!

Romantic Musical Drama - Woven upon a tapestry of environmentalism and the search for PEACE, filled with the symbolism of the holidays, *Angels in the Snow* tells the passionate inter-generational story of three couples separated by the Berlin Wall, and the bloody crises they face as they try to reach each other and survive. Warm, uplifting and affirming at its heart, our *Angels* face East German Communist Leader Erich Honecker, soldiers, fierce dogs, infidelity, torture, eco-terrorism, and The Wall that stands between them for 28 years. *Angels* is a story of romance, drama, desire, unrequited love, joy, desperation, tragedy, laughter, non-violence, and ultimate triumph and reunion, set against the powerful political upheavals of the cold war and eco-terrorism.

SYNOPSIS:

Angels personalizes the stark differences between the plentiful life of the West and the bleak existence of the East, and remembers the Nazi death camps; still it remains romantic, personal, even innocent – teenagers and college students have reacted to the story and the music with the same raw, unbridled emotional release, joy and passion as Baby-Boomers and World War II veterans. Perhaps in this time where nostalgia and urgency co-exist we are ready for a thrilling and uplifting story of real people whose real sacrifices changed the world.
